# CHSA 2019 Annual Conference

**Education Conference | February 6–8**

The California Head Start Association invites you to join us in Riverside, California this **February 4-8, 2019** for California’s largest Head Start event of the year! The CHSA Annual Conference houses the Parent & Family Engagement Conference, the Education Conference, and NEW in 2019, SPLASH into California sponsored by Frogstreet and featuring Dr. Kenneth Wesson.

**Parent and Family Engagement Conference, February 4th and 5th, 2019**

CHSA’s Parent and Family Engagement conference provides workshops with content for the parents of Head Start children and the staff who work with and for them. The Parent and Family Engagement Conference will feature the latest content on the Family Engagement Framework, as developed by the Office of
Head Start presented by the National Center on Parent, Family and Community Engagement on the following topics:

- **Family and Program Progress - Family Goal Setting**: Quantitative and qualitative data tell a story about families and document a program's impact in effecting positive change with families. Families come to HS/EHS with a range of perspectives, experiences, and circumstances. Since each family is different, progress toward the seven Family Outcomes of the OHS PFCE Framework will vary across families. As a result, programs collect and use a variety of family related data. Quantitative and qualitative data tell a story about families and document a program’s impact in effecting positive change with families. Intentional planning and goal setting with individual families is critical to overall programmatic planning and, in this content, we explore approaches to the family partnership process as an opportunity for successful goal-setting and progress alongside families.

- **Parenting Curriculum**: Another opportunity for tracking family data and progress is evidenced through implementation of a Parenting Curriculum over time.

- **Planning**: In addition, topics such as the Five-Year Project Period can be discussed and connected with the embedding of identified family outcome priorities into systems for planning, tracking, and continuous programmatic improvement efforts.

- **PFCE Systems Building and Integrated Services**: Program leaders set the stage for the priorities, policies, and practices within the context of the five-year project period. In this content, we review the importance of the systemic, integrated, and comprehensive approach to family engagement practices and demonstrate the connections between family engagement and child outcomes. Using the Program Impact Areas from PFCE Framework and the role-specific Relationship-based Competencies (RBCs), we also explore the preparation and ongoing professional development of staff and supervisors who work with families, in addition to credentials, certificate programs, and higher education opportunities.

**Who Should Attend?** HS/EHS Parents & Policy Council Members, FSWs, Family Engagement Staff, Home Visitors.
CHSA's Education Conference advances the knowledge and skills of those involved in the education of children age zero to five. The Education Conference will feature the latest content developed by the Office of Head Start presented by the National Center on Early Childhood Development, Teaching, and Learning (NCECDTL) on the following topics:

- **High Quality Teaching and Learning**: This topic area addresses necessary components of responsive learning environments, including research-based approaches to intentionally promote the features of high-quality teaching and learning around engaging interactions, well-organized learning environments, and using effective curricula and research-based teaching and home visiting practices to support all children with developmentally, culturally, and linguistically appropriate learning experiences focused toward achieving progress outlined in the HSELOF.

- **Effective and Nurturing Adult-Child Interactions**: Effective teaching practices emphasizing nurturing, responsive interactions.

- **PBC**: Building Coaching Capacity - Build coaches capacity for observational strategies, feedback and modeling of effective practices focused on goals and processes for improving effective teaching and learning in multiple settings.

- **PBC Leadership Academy**: Program leader teams, including Managers, Coordinators, Supervisors, and Coaches.

- **Homebased**: Support the needs of home visiting programs to facilitate parent-child interaction and the home as a learning environment during home visits and group socializations using a research-based, home-based curriculum with fidelity, guided by the HSELOF and child assessment.

**Who Should Attend?** Teachers, site managers, home based supervisors, child development and education managers, family and community partnership managers and program directors for both HS and EHS.

Mr. Silva stated that this is a great opportunity to get some good job experience. Mr. Tate reminded board members that the job centers are always available to assist parents in their job search. Mr. Silva thanked parents that are rotating out and wished them the best.

B. Governing Board Minutes of September 21, 2018: No questions.
V. **Committee Reports**

- Executive Committee Meeting Critique: Ms. Gutierrez reviewed the critique.
- Social/Hospitality Committee: No report.
- Sacramento Medi-Cal Dental Advisory Committee: Ms. Penelope Scott reported on a recent meeting where one major topic of discussion was the opioid crisis. An upcoming Senate Bill (SB1192) will offer children healthier food options.
- Community Action Board: Mr. Tate stated that some board members have expressed interest in being on the CAB for one of the low income seats. See Ms. Desha or call Mr. Bonanno to find more information.

VI. **Other Reports** (continued)

B. Head Start Deputy Director’s Report – Ms. Denise Lee thanked the board for their work on the End-of-Year Celebration. It was a great event. Staff had a conference call on the Attendance area of non-compliance that was determined in February. The information was provided well before the October 12 deadline. Ms. Lee reviewed the new attendance format that includes a monthly aggregate report for the boards for easy quarterly tracking. The new ways of tracking attendance in the classroom has been impactful. This allowed SETA to take a deep look at how the attendance issue is dealt with across programs. Enrollment and attendance are a hot topic nationally and Ms. Lee thinks ACF will use items developed in Sacramento as an example for other grantees in the future.

C. Chair’s Report: Mr. Castex distributed a list for those members interested in Human Resources interview/screening opportunities. Mr. Castex urged better relationships between board members in the next program year.

D. Head Start Managers’ Reports
   - Karen Griffith - School Readiness, Special Education and Mental Health Services: Ms. Griffith reported that the annual delegate school readiness meetings are continuing. Coaching Companion allows better access to teachers and we are very excited about sharing this model to teachers. The first DRDP evaluations are almost complete. As teachers meet with parents, there may be various reports available but there is no standard report yet.
   - Vacant - Program Support, Food Services and Save Environments, Quality Assurance, and EHS-CCP Services: No report.

E. Open Discussion and Comments: Mr. Tate expressed this is his last term with the Policy Council and it has been a great ride. Over his years at SETA, he has attended 57 board meetings missing only three. Ms. Desha asked PC Executive Committee members to meet after the meeting. Mr. Tate spoke of free and low cost legal representation available at The Justice League located on Fruitridge Blvd. Ms. Desha will provide program information to interested board members.

F. Public Participation: None.

VII. **Adjournment**: The meeting was adjourned at 10:46 a.m.

This monitoring review was performed using the 2018 Monitoring for Compliance and Quality Improvement tool (MCQI). MCQI was designed in ChildPlus and is comprised of 25 monitoring checklists representing 363 performance indicators. All indicators align with the Head Start Program Performance Standards (HSPPS), the Head Start Act, Community Care Licensing, and other local, state and federal regulations.

**Highlighted Program Strengths and Positive Observations:**

- Relationship between families and Home Visitors were observed to be warm, nurturing and supportive. Home Visitors were respectful and professional in their interactions, and demonstrated their commitment to helping the families by providing ongoing encouragement and resources.
- Socialization events were fun, organized, educational and well-attended by families. Home Visitors made families feel welcome and connected to a community. ASL Interpreter was available for family that needed the services.
- Overall, child file documentation by Home Visitors and assigned Early Intervention Specialist was very good. Follow-up was evident for areas that needed referral and follow-up support.
- Excellent Family Engagement as evidenced by strong connection with families and follow-up documentation on Family Partnership Agreements.

* Scores between 90-99% per section will be addressed by the program but do not require a formal Corrective Action Plan Monitoring. Scores less than 90% require a program-level Corrective Action Plan. Determination of a Comprehensive Review and/or Differentiated Review will be based on historic data.

### Follow-up and Corrective Action Plans:

A program-level Corrective Action Plan (CAP) to address above areas of non-compliance is due to SETA within 30 days of receipt of this report. Governing Board/School Board notification of monitoring results is required within 60 days.

Programs have been provided a form to complete the CAP which serves as written response by the agency to resolve systems-level areas of non-compliance identified during the MCQI review. A program trend CAP does not supersede the individual CAP for non-compliant indicators using the Child Plus Internal Monitoring Module.

For Early Head Start, the Special Education Report shows the number of children ages 0-3 who are receiving early intervention services through an Individualized Family Services Plan (IFSP).

Head Start Program Performance Standards Reference: 1302.14 (b)(1) states a program must ensure at least 10 percent of its total funded enrollment is filled by children eligible for services under IDEA, unless the responsible HHS official grants a waiver.

Monthly Program Information Report

UPDATES FROM THE OFFICE OF HEAD START (OHS)

ACF-IM-18-01 – On October 17, the Office of Head Start released an Information Memorandum (IM) regarding integrating approaches that prioritize and enhance father engagement. The purpose of IM is to strongly encourage all human service agencies to work together across governments to jointly create and maintain an environment that prioritizes father engagement as a critical factor in strengthening families and adopt approaches to enhance paternal involvement in all family support and child welfare related programs. For more details, visit https://www.acf.hhs.gov/sites/default/files/assets/acffatherhoodim_final.pdf

Our thoughts and well wishes go out to the families, children, staff, and communities who suffered losses during the fires that ravaged our great State. Please visit the California Head Start Association and the Region IX Head Start Association websites for information on how you can help restore our neighboring communities.

A HEALTH UPDATE FROM SACRAMENTO CITY USD

For the month of November, the Preschool Nurses were involved in the following on-going activities:

- Sensory screening of newly enrolled preschoolers.
- Review of health documents for newly enrolling preschoolers
- Elevated lead level or low hemoglobin level follow-up as needed with referral to Registered Dietitian as indicated per protocol
- Follow-up on BMI (heights and weight) with referral to Registered Dietitian as indicated per protocol.

Early Smiles continues with their Dental Varnish Clinics and dental assessments. The overall participation by our preschoolers preliminarily appears to be higher than last year. It is also anticipated that there may be a second Dental Varnish Clinic held in the spring for children who enrolled late.

AN EDUCATION UPDATE FROM SAN JUAN USD

All programs have finished their fall assessments. EHS and HS teachers are sharing each child’s Individual Development Plan at Family Conferences. These conferences will run from November through December. All programs are beginning their winter assessment period for DRDP or HELP.

Education Training: EHS teaching teams are continuing their PITC sessions at monthly PD meetings. The other topic covered was Supervision, presented by the Safe Environment Content Specialist. Home Based Teachers are meeting now to discuss and plan topics specific to them.

The staff viewed an OHS video on digital media and 0-3 year old children at this first meeting. Home Based Teachers will meet monthly and plan future topics.

HS Teachers began their Coaching Pilot Model. Based on Spring DRDP data from 2018, three CLASS topics were presented. Teachers self-selected from these topics and attended a one hour PD, then joined their regional groups to share out on the PD topic as well as to discuss and network around the implementation of study topics.

TWIN RIVERS USD CELEBRATES HMONG NEW YEAR

All three TRUSD Head Start sites participated in the Hmong New Year’s Celebration as they continue to celebrate diversity in their communities. Students, families and staff were encouraged to dress in their cultural attire for the event. The event included students performing Hmong dances to cultural music for the entire school as well as invited parents. Hmong staff then taught the students a few of the cultural dance moves and all students practiced in the playground area. Every classroom made Hmong hats and belts out of paper and wore their decorative gear for the event. For this event, staff also taught parents how to make egg rolls and provided the recipe to make the delicious treat at home. Parents sampled the food and enjoyed the live entertainment.
ATTENDANCE UPDATE

Getting Everyone Involved in Attendance

The culture surrounding attendance at SETA has begun to shift. Parents, Teachers, Children, FSWs, and Site Supervisors are all working together to make attendance a constant and important daily conversation. Parents are seeing their children’s daily attendance every time they sign their child in or out. Parents are asking teachers about their child’s attendance and how it is affecting their development.

Parents are becoming invested in not only getting their child to school every day, but also getting them to school on time. Teachers and children are having daily conversations about who is in class and why it is important to come to school every day. Sites have adjusted their environments to reflect this culture shift by having daily attendance reminders in the classrooms and around the site.

Progress Update

Average daily attendance has increased and stayed at a higher percentage since August 2018. In September and October, the average daily attendance increased by 7-8% in Full Day and Part Day Preschool classrooms. For EHS classrooms, attendance has increased by 6-7% since August 2018. The site staff have been working consistently to remind families how important attendance is for their child’s development. Families are using the EZ-ID attendance tracking to track their child’s attendance daily. EZ-ID attendance tracking has sparked conversations between the families and teachers about the importance of attendance. It has begun to concretely show families and staff how missing just two days a month can impact attendance. Staff have reported that emphasizing good attendance habits at the first enrollment meeting and home visit, sets a clear expectation about the importance of attendance for families. As flu season approaches site staff have been reminding families of the sick policy, and when it is appropriate to keep their children home due to illness. Attendance remains to be an important topic that is being addressed initially at enrollment, daily in the classroom, and monthly at parent meetings.

Alder Grove IT has attendance charts above the children’s cubbies as a daily visual reminder for parents (above).

16th Ave. Staff are giving recognition to children who are at school every day! (right)

16th Ave. has a, “When does missing school become a problem?” poster posted right as parents come in the front door (left).
GALT PARENTS LEARN HOW ATTENDANCE AFFECTS LEARNING

During this activity the puzzle pieces were representative of children’s knowledge. When children come to school each day they construct more knowledge (adding a puzzle piece) in order create a picture of their world. In this activity some parents had a complete puzzle (an example of 100% attendance) and others were missing up to 8 puzzle pieces (66% attendance).

Parents were able to see how difficult it is to have a complete picture when they have too many missing puzzle pieces due to absences. If children are chronically absent from school they may not have those opportunities to learn, grow and be ready for a kindergarten setting.
